The American Society of Landscape Architects (ASLA) Florida Chapter has selected Dominic Mack as the 2021 recipient of the Exceptional Emerging Professional Award. The honor may be awarded to one landscape architect who represents the highest standard of excellence and is in the early stage of their professional life.

An FIU graduate with a Masters of Landscape Architecture, Dominic continues to investigate the still-untapped potential to *shape and foster connections between people and experiences within our urban contexts*. In efforts to give landscape architects a voice and to continuously echo the benefits of landscape architecture, Dominic is actively involved with the ASLA Florida Chapter and currently serves on the ASLA Florida Executive Committee as the PR & Marketing Chair.

Dominic Mack, Assoc. ASLA
Landscape Designer
Calvin, Giordano & Associates, Inc

Immediately after graduation, Dominic joined the award-winning, multidisciplinary firm of CGA, where he has had the opportunity to work collaboratively with firm-leaders and mentors. The mentorship has established a working relationship that led to professional growth and encouraged his development of leadership skills. Dominic has become an integral component as a design and visualization leader to the team and has actively looked for ways to bring more visibility to the company by introducing new, contemporary software and leading all graphic communications. His efforts have opened the door for the company to pursue more work and have led to Dominic becoming a key contributor to the company.

Although green in his professional career having only 4 years of experience, Dominic has been able to actively lead in various projects from project solicitation through construction administration and has always had the ability to seek how to better himself by looking for opportunities to level competitive fields. His motivation has led to his pursuit of licensure immediately after graduating. After having completed a few of the exams and obtaining one of the 2021 LARE Grants, he has been actively taking the next steps to pursue licensure and is determined to finish all exams in 2021.

Eligible nominees for the award are associate or full members with less than ten years in the profession. The winner is selected by a Jury of Fellows in the Society. Dominic will receive the prestigious award at the next gathering of the Florida Chapter ASLA.
